YIWU MINGYUAN STATIONERY PRODUCTS CO.,LTD  
2ND FLOOR, NO.737,DANXI NORTH ROAD, BEIYUAN STREET, YIWU, ZHEJIANG

### Labeling of Hazardous Art Materials Act (LHAMA) Cover Page

The following samples were submitted and identified on behalf of the client as:

WHITE GLUE  
(1 formula )

Net Weight : 40ML  
Manufacturer : YIWU MINGYUAN STATIONERY PRODUCTS CO.,LTD  
Region of Origin : CHINA

\*\*\*\*\*

Sample Information Received : FORMULATION WITH CHEMICAL NAME, CAS NO. AND PERCENTAGE  
Order Receiving Date : DEC 24, 2024  
Last Information Date : DEC 31, 2024  
Assessment Period : DEC 24, 2024 TO JAN 23, 2025

### Service Requested

For compliance with Labeling of Hazardous Art Materials Act (LHAMA) and the criteria outlined in ASTM D-4236 for the said product per information provided.

### Conclusion

The submitted formula(s) comply with Labeling of Hazardous Art Materials Act (LHAMA) provided that the parameter given in the section "Labeling practice" has been indicated on the product label.

Date: JAN 23, 2025

Page 3 of 3

### ASTM D4236 - Labeling of Hazardous Art Materials Act (LHAMA) Report

The formulation of WHITE GLUE is reviewed according to the US Consumer Product Safety Commission's guideline at 16 CFR 1500.135 and the criteria outlined in ASTM D-4236.

In this review the available data, including the relevant data from the National Toxicology Program (NTP), International Agencies for Research on Cancer (IARC) and other sources in the National Library of Medicine Data Bank were considered to assess the need for chronic health hazard warning. The carcinogenicity, reproductive hazard, neurotoxicity, bioavailability and potential exposures were also considered and in the absence of specific data, a reasonable judgment was made to assure a realistic assessment of the hazard on the ultimate art material package.

The review is based only on the submitted formula. According to the client's needs and to protect business secrecy, detailed formulations are NOT presented in this report, whereas they are recorded in the SGS Archives. In case of medical events, it is the client's responsibility to provide the formulations to a patient's physician, or SGS upon request may furnish relevant medical units, on a confidential basis, information necessary to diagnose or treat cases of exposure without prior written authorization. The ingredients used shall fulfill corresponding purity requirements. The ingredients in this product are assumed to contain no contaminants or residues at level that would cause chronic toxicity among users when used for its intended purpose. If there is any alteration to this formula or if heavy metal contamination such as lead is detected in this product, it will void this certification.

The product is intended for office, school, family, stick for paper and paper card by population of 3 years old and above as client claims for art creation. None of the ingredients at a level found in this product is expected to pose any significant chronic adverse health effects in consumers with customary use. Taking into account this information it is considered that, in the present state of knowledge, the submitted formulations put on the market are unlikely to cause chronic toxicity among users, when used for its intended purpose.

#### Labeling Practice:

The following parameter should be indicated on the product label conspicuously and legibly.

#### CONFORMS TO ASTM D-4236

HONGJING XU MB, MPH,  
Diplomate, American Board of Toxicology,  
European Registered Toxicologist,  
Certified Toxicologist of CSOT  
Certified Cosmetic Safety Assessor
